

MODERN
Landfill

Recycling Services Available

January 21, 2021

All your recycling and waste needs – handled by one provider.

YORK, Pa. (Jan. 21, 2021) – Most central Pennsylvanians who know about Modern Landfill think of the facility as exactly that – just a landfill. But Republic Services, which has owned and operated the landfill since 1999, offers a wide range of business and residential waste disposal and recycling service options throughout the region.

That's especially important with the way markets are today. Many residents in Lower Windsor Township, among other communities, have recently reported losing access to curbside recycling services. Fortunately, they have another choice.

When it comes to handling your recycling and waste disposal needs, Republic Services knows how important safe and dependable curbside pickup and removal are to you. We strive to meet our customers' needs day in and day out, with a variety of recycling and disposal offerings and reliable pickup schedules.

With Republic Services' subscription service, customers can have all of their recycling and waste service needs handled by one provider. **To learn more, or to sign up for our combined waste and recycling subscription service, call our Customer Resource Center at 1-800-210-9675, or visit us online at www.republicservices.com.**

As part of negotiations related to [Modern Landfill's planned 122-acre expansion in Lower Windsor Township](#), the facility has proposed free curbside recycling and waste services for residents there – just as we already do for residents in Windsor Township, where most of the landfill is located. It's part of our commitment to bring long-term value to our neighbors.

In the meantime, Modern Landfill, backed by an industry-leading recycler Republic Services, remains a community asset, just as it has for nearly 50 years.

Our facility still offers residents free recycling services through a public drop-off center at our facility off Mount Pisgah Road in York County, where we accept paper, cardboard, metal cans, plastic bottles and jugs. We remain committed to serving you.
