Community Turns out to “Touch a Truck”

Local Team Hosts Event for Children at East Prospect Little Free Library

EAST PROSPECT, Pa. (Aug. 25, 2021) – We cherish the longstanding relationship we have with our neighbors, which is why Modern Landfill supports causes and organizations that serve our community.

Our local team recently joined **East Prospect Little Free Library** for its final “Story Time” event of the summer, giving children a chance to “Touch a Truck” operated by Republic Services, which has owned and operated the Modern Landfill since 1999.

More than 50 toddlers and their parents or guardians attended the event, where they learned about truck safety, talked to our operators, and got a firsthand look at the inner workings of one of our big blue trucks, which runs on natural gas.

The children were able to climb inside and sit in the cab of the truck, honk the horn, and take pictures with their families while sharing some treats. Check out [East Prospect Little Free Library’s Facebook](#) page to read all the comments and see all the photos from the event.

We know that serving our customers and neighbors goes beyond handling their recycling and waste needs. Our entire team is committed to volunteering or donating time or resources in the communities where they live and work.

The trucks are the centerpiece of the environmentally responsible and sustainable services that Modern Landfill and Republic Services provide. If you would like us to sponsor a “Touch the Truck” visit at one of your events, please contact us. See you on the road!
