

Lower Windsor Township Residents Attend Community Meeting

April 12, 2023

Modern Landfill is investing \$23 million to upgrade the facility

YORK, Pa. (Apr. 12, 2023) – Thank you to the dozens of residents who showed up at the March 27 community meeting in the Lower Windsor Township gymnasium to learn more about Modern Landfill's \$23 million wastewater treatment plant and the advanced technology being deployed on site.

We are always open to answering your questions. Please don't hesitate to reach out. Additionally, resources from that meeting have been posted on our website under **"News & Resources."**

Modern Landfill has been part of this community for nearly 50 years. We appreciate the relationship we have with our neighbors. This event was designed specifically to help you understand every facet of our operations and ensure ongoing engagement with the communities where we operate.

Residents had direct access to environmental managers, engineers, scientists, and senior leaders to understand fully Modern Landfill's operations and the work being done to protect public health and the environment. **We appreciate the time you took talking one-on-one with these professionals to get all your questions answered.**

Construction on the wastewater treatment plant continues, with the project set to wrap up soon. Upgrades include installation of newer, advanced treatment methods that are recognized as capable of treating PFAS. **Protection of all water sources is a priority at Modern Landfill, and this investment proves our commitment to protect public health and the environment.**
