Community Investments Celebrated by York Habitat for Humanity

YORK, Pa. (March 21, 2024) – Our neighbors come first.

That's why Modern Landfill, backed by industry leader Republic Services, invests in the communities where our employees, customers and neighbors live and work.

Over the years, Modern Landfill has supported several local causes and nonprofits, including the York Habitat for Humanity, which named Republic Services a "Habitat Hero" for the significant impact we've made locally.

Republic Services is a longtime supporter of Habitat for Humanity's neighborhood revitalization efforts, so it's a real honor to be recognized for the partnership we've built with the organization.

The award was handed out at the inaugural Habitat Heroes Breakfast Celebration on Tuesday, March 12 in York, **where the organization announced that Republic Services' community investments and support totaled more than \$130,000.**

Republic Services and Modern Landfill contribute financially to Habitat for Humanity. Our employees volunteer their time on community projects. Our local fleet transports construction and demolition waste that's disposed of safely and responsibly in Modern Landfill at no cost to the organization. We're proud of our record of service.

We cherish the longstanding relationship we have with our neighbors and remain committed to supporting organizations and causes that serve our community.

Thank you, York Habitat for Humanity, for all you do to build safe, decent affordable homes for local families and individuals in need.
